NBS Line List - Data dictionary

Column Name	Description of variables	Value field	Format	User (U)/system (S) defined*
Age Category Code	Code representing the category to which a person belongs	blank		S
Age Reported	Age of the patient	number	number without decimels	S
Age Reported Time	The peson's age reported at the time of interview	number		U
Age Reported Unit Code	Code for age unit (year, months, wwks, days, hours)	text	Y, M, D	S
Birth Gender Code	A code representing gender (sex) at the time of birth (Male, Female)	text	F, M	U
Birth Order Number	The order in which the person is born	blank		U
Birth Time	Date and time of person's birth	date	mm/dd/yyyy; 00:00	U
Case Status	Code for current status of the case (confirmed, Probable, not a case)	text	C, N, P	U
Case Type Code	Code that indicates whether the case report is an individual case (I) or a summary report (S)	text	I, S	S
City	City name	text		U
Concatenated Race Category Code	Code for races	4 digits number with hyphon and text	2106-3= White; U= Unknown; 2054-5=Black or African American	S
Concatenated Race Description	Race Descriptive text	text	White, Unknown, Black or African American	U
Condition	The kind of public health case	text	Hepatitis, Lyme, Legienella etc	U
Condition Code	A code specifying the kind of public health case (condition	number (6 digits)	10106, 11020, 10105, 11723 etc	S
Condition Description	Textual description of the condition code	text	Hepatitis C Virus Infection, chronic or	U
Confirmation Method Code	Intended to provide information about how the case classification status was derived. Includes laboratory criteria (alone)met, epidemiologist-or other public health worker-assigned, epidemilogically linked via investigation, and physician reported.	text	LR= laborotary report; CI= clinical information	S

NBS Line List - Data dictionary

Confirmation Method Time	Date of confirmation method	date	mm/dd/yyyy; 00:00	U
Country Code	Country code for a postal location	number (3 digits)	840	S
County	County name	text	Mercer County, Morgan County	U
County Code	County code for a postal location	number (5 digits)	54055, 54061, 54039 etc	U
Current Sex Code	Code indicating a the person's current sex (male, female)	text	F, M	U
Deceased Indicator Code	An indication that the subject is dead (yes, no, unknown)	text	Y, N, UNK	U
Deceased Time	Date and time that a living subject's death occurred	date	mm/dd/yyyy 00:00	U
Detection Method	Method by which the case was identified	text	Patient self referral, Provider reported, other	U
Detection Method Code	Code for the method by which the case was identified (Patient self referral, Provider Reported, Other)	text	S, PR, OTH	S
Diagnosis Date	Date the first positive result was obtained. i.e.Date of diagnosis of condition being reported to public health	date	mm/dd/yyyy 00:00	U
Disease Imported	Indicates whether the disease was likely acquired outside the jurisdiction	text	Indigenous, Unknown, Out of the country	U
Disease Imported Code	Code that indicates whether the disease was likely acquired outside the jurisdiction (Indigenous, Unknown,	text	IND, UNK, OOC	S
ELP From Time	Indicates the starting period in time during which the entry is related to the location	date	mm/dd/yyyy; 00:00	U
ELP To Time	Indicates the end period in time during which the entry is related to the location	date	mm/dd/yyyy; 00:00	U
Education Level	The level of education the person is achieved	text	high school, college	U
Education Level Code	Code for education level (High school diploma, College)	text	HD	S
Ethnic Group	If the person is Hispanic or not	text	Not Hispanic or Latino	U
Ethnic Group Indicator	Indicates if person is Hispanic or not	number with hyphon and 5	Not Hispanic =2186-5; Hispanic=2135-2	S
Event Date	Event date	date	mm/dd/yyyy; 00:00	S

Event Type	Type of events based on different dates	text	OnsetDate = 'O'; Diagnosis_date= 'D'; rpt_to_county_time = 'C'; rpt_to_state_time = 'S'; phc_add_time = 'P';	S
First Notification Date	*Date that regional Epi creates a notification with an investigation for approval by State*	*date*	*mm/dd/yyyy; 00:00*	S
First Notification Sent Date	*to be submitted to CDC (utilized for indicating when CDC is notified, unless Notification Status is indicated as MSG_FAIL)*	*date*	*mm/dd/yyyy; 00:00*	S
First Notification Status	Status of notification record (Approved or Pending Approval)	text	APPROVED; PEND_APPRO	S
First Notification Submitted By	First notification submitted by	8 digits number	10248843; 10249001 etc	S
Group Case Count	Number of records being reported in a single Case Report	number	0, 1, 2, 3	S
Investigation ID	NBS identified investigation ID for specific invesrtigation. This is a system assigned value.	number	10330346; 10330814 etc	S
Investigation Start Date	The date the investigation was started or initiated.	date	mm/dd/yyyy; 00:00	U
Investigation Status Code	Code that indicates the investigation status of the case	text	O=open; C= Closed	U
Investigator Assigned Date	The date the investigator was assigned this record	date	mm/dd/yyyy; 00:00	U
Investigator Name	Case investigator's name	text	White Bob, Kline Kimberly	U
Investigator Phone	Case investigator's telephone number	number with hyphon	xxx-xxx-xxxx	U
Jurisdiction	Physical area from which the report is being submitted	text	County, WV	U
Jurisdiction Code	Code for physical area from which the report is being submitted	zip code	5 digit zip code	U
Last Notification Date	*An update made to an investigation*	*date*	*mm/dd/yyyy; 00:00*	U
Last Notification Sent Date	*Last time a notification was processed by the NBS system and queued to be submitted to CDC (utilized for indicating when CDC is notified)*	*date*	*mm/dd/yyyy; 00:00*	S
Last Notification Submitted By	Last notification message submitted by	8 digits number	1,024,903,010,248,840	S

NBS Line List - Data dictionary

Latitude	The latitude portion of the geocode	number with six decimala(may		S
Longitude	The longitude portion of the geocode	number with six decimala(may		S
MMWR Week	MMWR Week for which case information is counted for MMWR publication	number (1-53)	1, 2, 52 etc	S default
MMWR Year	MMWR year for which case information is counted for MMWR publication	number (4 digits year)	2011, 2012, 2013	S default
MPR Id	Master patient record ID	number (9 digits)	10330317; 10330474;10330620 etc	S
Marital Status	Marital status of the person	text	single, never married; married; unknown	U
Marital Status Code	A value representing the domestic partnership status of person (single, married, unknown)	test	S, M, U	S
Notification Date	*Date that CDC is made aware of notification for the first time (this date essentially works as a duplicate to the First NotificationSent Date)*	*date*	*mm/dd/yyyy; 00:00*	S
Number of Notification Created	Number of notifications indicated as "Approved" - msg approved to be sent to CDC	number	1, 2	S
Number of Notification Sent	Number of notifications indicated as "Completed" - msg sent to CDC	number	1,2	S
Occupation Code	A code specifying a person's occupation	number	54= professional, scientific and technical	U
OnSet Date	Condition onset date. i.e. Date of the beginning of the illness	date	mm/dd/yyyy 00:00	U
Outbreak Indicator	Indicates whether this case is considered an outbreak (Yes, No, Unknown)	text	N, UNK, Y	U
Outbreak Name	Name assigned to an individual outbreak	text		U
Outcome Code	Code depicting the outcome of the case. Indicates the disposition of the subject of the report for a condition	text	N, UNK, Y	U
PHC Status Code	A code depicting the state of the participation (e.g., pending, active, complete, cancelled) of public health	text	A, P, C	S
Participation Type Code	Participation type code	text	SubjOfPHC	S
Patient Address As Of Date	Patient address as of PHC (public health case) add time	date	mm/dd/yyyy 00:00	U

NBS Line List - Data dictionary

Patient Age At Onset	Number indicating patient' age at condition onset.	number	53, 13 etc	S
Patient Age At Onset Unit Code	Unit of measure for the patient's age at onset (Year, Months, Days)	text	Y, M, D	S
Person Id	NBS identified person ID for for the patient.	8-digit number	10330329, 10370104	S
Person Local Id	The person's default local system assigned identifier	text and number	PSN10101243WV01;PSN 10101262WV01	S
Person Name	Person's name	text	LASTNAME, FIRSTNAME	U
Phc Add Time	Date the PHC (public health case) record was added	date	mm/dd/yyyy 00:00	S
Physician Name	Name of the physician	text	LASTNAME, FIRSTNAME	U
Physician Phone	Phone number of physician	number with hyphon	xxx-xxx-xxxx	U
Primary Language	The language the person is most comfortable with (English, Spanish).	text	English	U
Primary Language Code	Code that indicates the language the person is most comfortable with.	text	ENG	S
Program Area Code	Contain program area code	text	HEP-C, ZD, VPD, IBD, ENT, STD	U
Record Load Time	The date/time of the processing status. Default value: today's date.	date	mm/dd/yyyy 00:00	S
Record Status Code	The processing status of the record	text	Open, Active	S
Report Date	The report date. **The report date is determined from 1 of 3 fields found in the NBS_ODSE.public_health_Case**	date	mm/dd/yyyy 00:00	U
Report Form Completion Time	It is the **date of report**. Date first reported by reporting source.	date	mm/dd/yyyy 00:00	S
Report Source Code	The type of facility or provider associated with the source of information sent to Public Health	text	LA= lab; PH= health dep; HO= hospitals; ER=	S
Report Source Name	Description of name of reporting source	text	Office of Laboratory Service; Laboratory Corporation of America-ViroMed;CAMC Memorial	U
Report Source Type	Description of type of reporting source	text	Laboratory; Hospital	U

NBS Line List - Data dictionary

Report To County Time	Date/time case was first reported to the county public heath system. i.e. Earliest date reported to county public health system.	date	mm/dd/yyyy 00:00	U
Report To State Time	Date/time case was first reported to the state public health system. i.e. Earliest date reported to state public	date	mm/dd/yyyy 00:00	U
Reporter Name	Name of the reporter	text	LASTNAME, FIRSTNAME	U
Reporter Phone	phone number of the reporter	number with hyphon	xxx-xxx-xxxx	U
Shared Indicator	Indicates if the record may be shared	text	T=true, the record may be shared; F=false, the record is not sharable	S default
State	Name of the the state	text	West Virginia	U
State Case Id	Sate case identifier	number	94642, 62053 etc	U
State Code	Code for state	number	54	S
Street Address 1	Street address	number followed by text	1234 ABCD ST	U
Street Address 2	Street address	text	APT A	U
Zip Code	Zip code	number (5 digit zip code)		U
